# Exide battery charger manual 7061260

GNB A division of Exide Technologies Industrial Battery Charger Installation and Operation Manual 3 S47-0079 Rev0410 1 INDEX Page Section 3 Description n 3 - Safety Instructions 4 1.0 Installation 3 4 1.1 Receiving 4 1.2 Location 3 n 4 1.3 Line Voltage Adjustments 6 1.4 AC Service Requirements 6 1.5 Connecting AC Service to Charger 7 1.6 Grounding The Charger 7 1.7 Battery connector and charger cable 7 1.8 Load rate adjustment 8 2.0 Operation 8 2.1 046-0371 Control 13 3.0 Optional features 13 4.0 Troubleshooting and maintenance 15 5.0 Replaceable parts 15 5. Averting This equipment contains lethal voltage levels. Installation 3 service must be performed by qualified and important personnel: Keep these instructions! Read and follow all instructions before installing, operating or servicing a charger. Any deviation 3 cause serious and permanent damage. Failure to comply with the instructions cancels the guarantee. 1. Install and connect the charger in accordance with the 3 national and its 3 say the local. Section 3 1 - Installation 3 1.1. Receiving immediately upon receipt of the charger, check it with the shipping invoice to ensure that the shipment is complete and undamaged. Examine the outside of the packaging for signs of approximate handling before accepting the carrier's charger. If there is evidence of damage, the receipt must be signed, and both copies (carriers and 3 copies n marked "envoyé received damage" note: When a 120/208/240 AC input unit is set to 120 VAC a neutral fuse (rated 3 n tube) is required in the 3 position of the line 2 (neutral) fuse. Fig. 1.3.1. A.C. Voltage adjustments 1 60Hz. (120/208/240) 60Hz. (208/240/480) A to B Voltage 3 Fig.1.3.3. A.C. Voltage adjustments 3 60Hz. 1.4. Failure to comply with the instructions cancels the guarantee A. 1. Install and connect the charger according to the National Cric Cadre and its local Cric Code. If the charger is not correctly connected to mass, a fatal electrical discharge may occur. 2. To reduce the risk of fire, install loaders on an surface of incombustible material, such as concrete, stone, brick or metal to ground. 3. This charger has been designed to load only flooded batteries, lead-igido. It should not be used to load other types of flooded or sealed batteries. 4. Connect only the batteries of the same cell number and the same amperio-hora capacity indicated in the plate of the charger. They could produce damage in the battery, especially if it has less cells than the nominal capacity of the charger. 5. Do not touch the non -isolated parts of the output connector or the battery terminals. There is the possibility of a severe eliric discharge. 6. During the load, the batteries produce hydro -greek gas, which can explode if it turns on. Never smoke, or use an open flame, do not think sparks in the vicinity of the battery. Ventilate well when the battery is in a closed space. 7. Do not connect or disconnect the batterous plug while the charger is on. If it does, it will cause the archaeration and the combustion of the connector, which will cause the charger or the explosion of the battery. 8. The lead-igo batteries contain sulfuric acid, which is cychatic and can cause chemical burns to the skin. See the instructions of the Battery manufacturer for safe handling of the batteries. Use the appropriate staff protection equipment. Do not get into the eyes, skin or clothes. In case of eye contact, wash immediately with clean water for 15 minutes. Look for medical attention immediately. 9. Do not share the charger with the door open or with the disassembled panels. All CA and CC feeding connections before carrying out the maintenance of the loader. 10. The charger is not for outdoor use. Do not expose the charger to the spray of water, rain or snow. 11. Do not share the charger with dais dais including cables with exposed conductors or damaged connectors. Replace damaged cables before operation. 12. Do not operate the charger if it has been dropped, received a sharp blow, or otherwise damaged in any way. Call your service representative.
